WORK EXPERIENCE

COLLEGE INSTRUCTOR

January 2026 – present

STI COLLEGE DAVAO

- Developed and delivered lessons on Programming Languages and Advanced Web Programming courses.
- Taught Python, Laravel, and Nuxt, focusing on core concepts, development principles, and hands-on learning.
- Guided students in building practical skills and industry readiness for careers in software and web development.

BACKEND DEVOLOPER

June 2025 – March 2026

AWORK Group A/S, Copenhagen, Denmark

- Led backend architecture and development for 9+ web applications across analytics, advertising, accessibility, and survey platforms.
- Engineered scalable APIs, backend services, and integrations for CookieConsent, ad trackers, SEO tools, WCAG compliance auditors, and analytics systems.
- Built and maintained compliance-focused solutions for website and PDF accessibility auditing.
- Integrated third-party scanners, consent tools, and tracking platforms to support marketing and compliance requirements.
- Optimized backend performance, maintainability, and reliability across multiple production systems.

WEB DEVELOPER (INTERN)

January – June 2025

AWORK Group A/S, Copenhagen, Denmark

- Contributed to the maintenance and enhancement of core backend functionalities for the CitizenOne project, with a focus on optimizing the duty schedules module, including backend logic and schedule display generation.
